PROFESSIONAL EXPERIENCE

Newstoday Website

- Designed and developed a dynamic news website with daily updated content, user commenting functionality, secure email verification, and login system.
- Utilized HTML, CSS, JavaScript, and React for responsive interfaces and improved user experience.
- Implemented Node.js and Express.js for efficient data management and server-side functionalities.
- Increased user engagement by 30% through the integration of interactive commenting.
- Collaborated with cross-functional teams for timely project delivery.
- Received positive user feedback on the intuitive design of the website.

Crypto Website

- Created Cryptoverse, a cutting-edge website powered by React.js and Redux toolkit.
- Provides real-time data on leading cryptocurrencies and the latest developments in the crypto world.
- Developed an intuitive user interface with seamless API integration for accurate market values and rankings.
- Collaborated closely with a talented team to deliver a visually captivating design and effortless navigation.
- Elevated user engagement by delivering valuable insights and up-to-the-minute information.
- Commended for the website's user-friendly experience and consistent updates to reflect the ever-changing market landscape.

3D Customization Website

- Highly skilled web developer proficient in Three.js, React.js, Next.js, and Tailwind CSS.
- Spearheaded the creation and continuous maintenance of a cutting-edge 3D customization website.
- Specialized in personalized t-shirt design with AI chat integration.
- Engineered interactive features for users to easily personalize colors, patterns, and graphics.
- Collaborated closely with designers to ensure a seamless user experience and optimize performance.
- Possesses a strong background in front-end development, version control, and agile project management.
- Resulted in efficient and successful project delivery.

ACADEMIC EDUCATION

GoMyCode Full-Stack JavaScript Bootcamp in 2022-2023

- Attained expertise in JavaScript-based full-stack web development, acquiring comprehensive knowledge and practical skills.
- Specialized in building dynamic and interactive web applications using industry-leading frameworks and libraries.
- Demonstrated problem-solving prowess through hands-on projects, honing the ability to deliver high-quality solutions.
- Achieved significant proficiency as a versatile full-stack developer, well-equipped for diverse web development challenges.

COMPETENCE

- Proficient in React.js, Next.js, and Redux for building robust and interactive web applications.
- Experienced in Three.js for creating engaging and immersive 3D experiences on the web.
- Skilled in Node.js for developing efficient server-side applications and APIs.
- Proficient in Figma for designing and prototyping user interfaces with a focus on usability and aesthetics.
- Familiar with Git and Github for version control and collaborative software development.
- Knowledgeable in React Native for building cross-platform mobile applications
